3S Pack Cells Connection

6x 3500mAh, Unprotected 18650 Cells

3S pack balance connector.

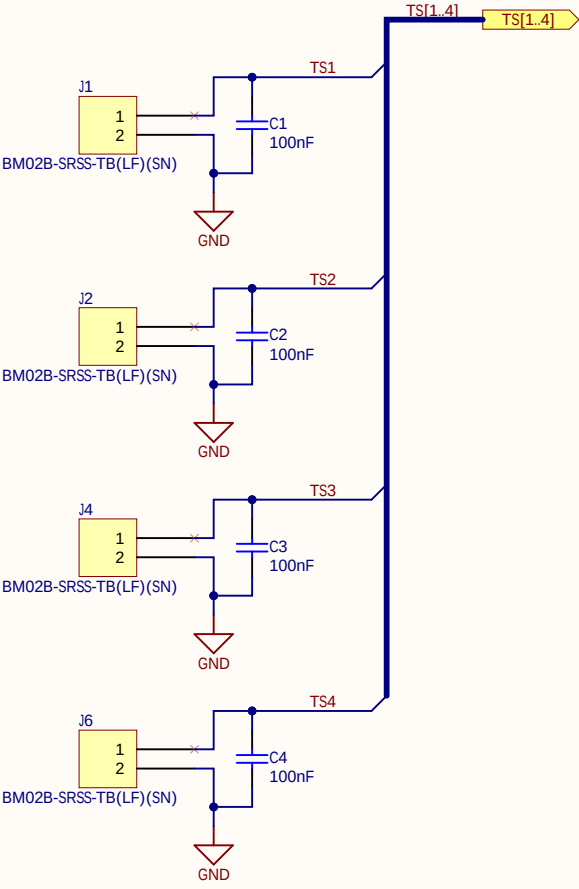

Top-of-pack and bottom-of-pack power connector.

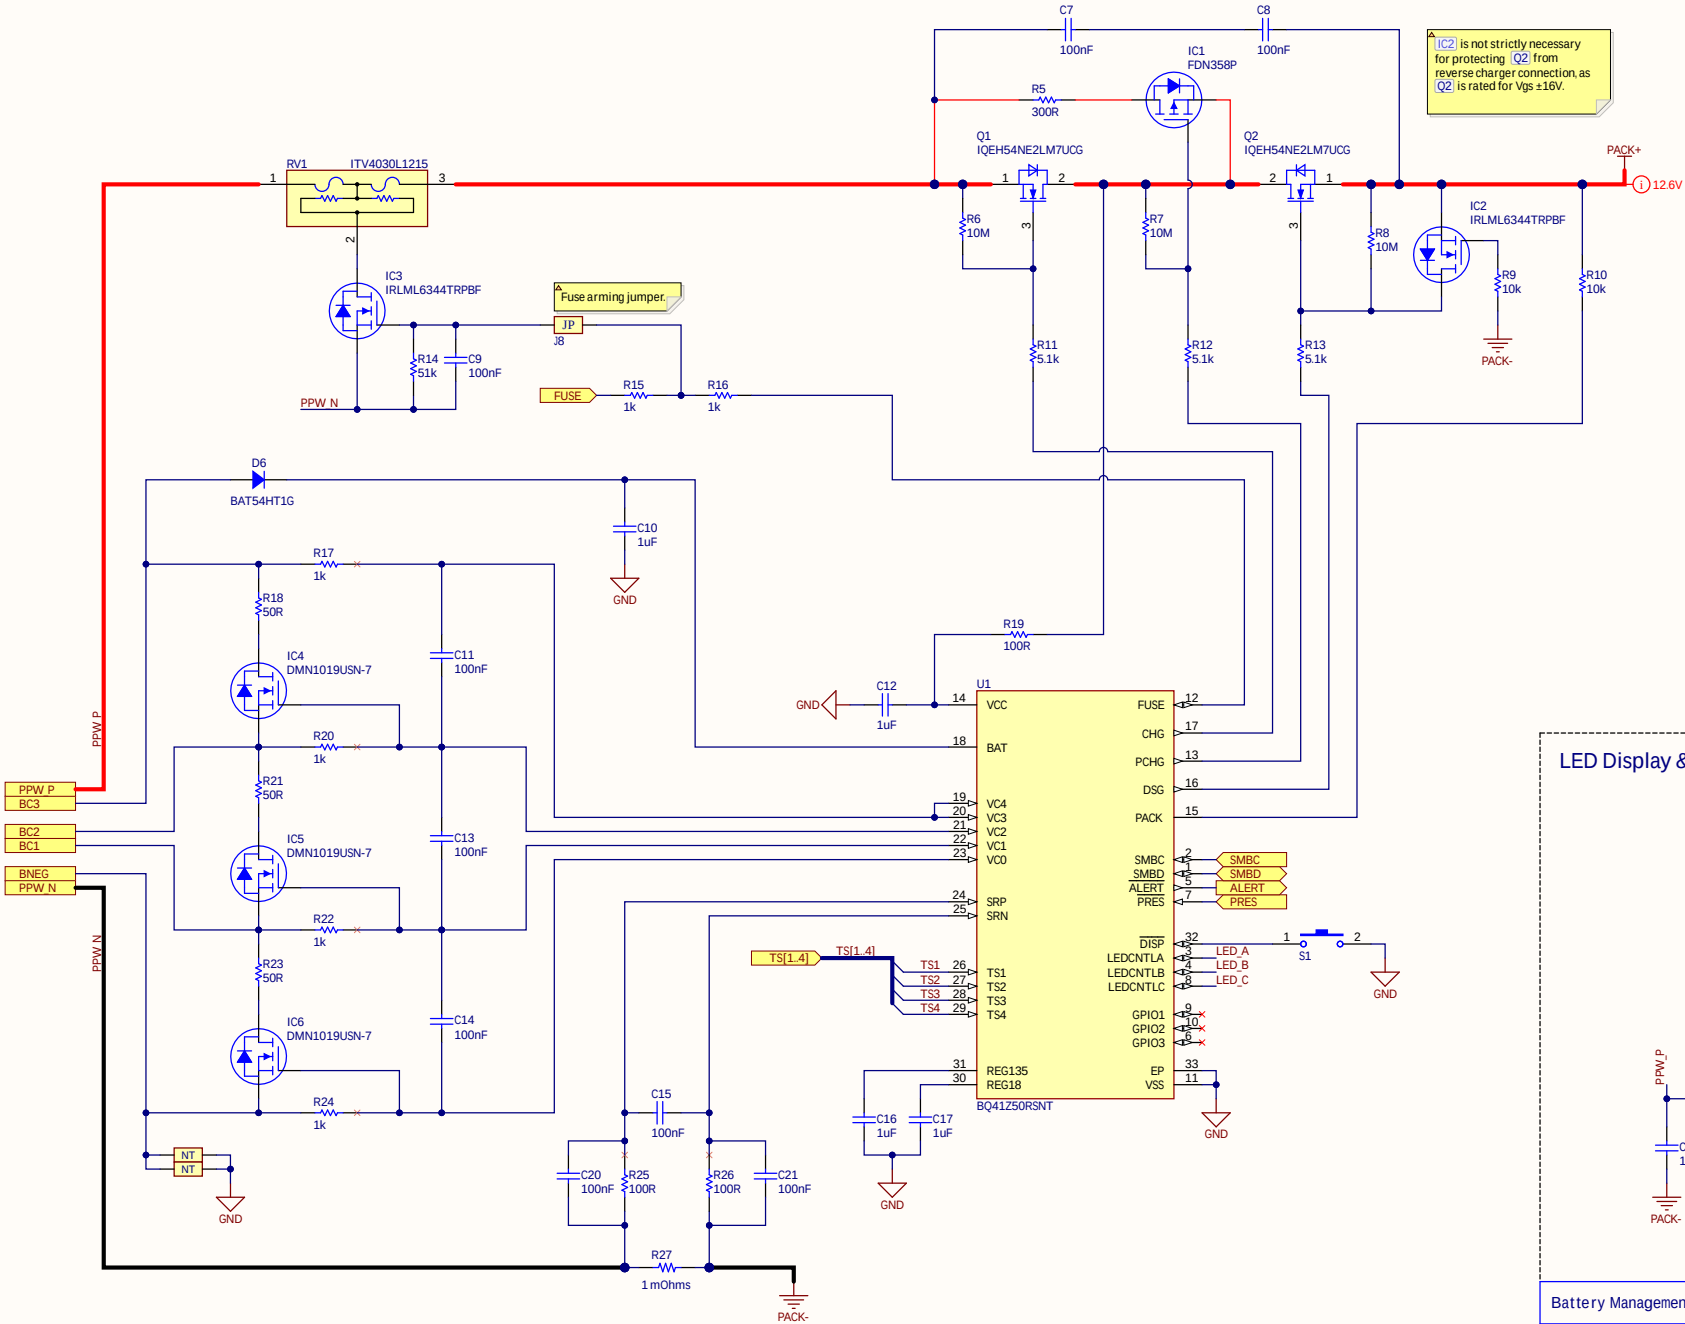

Pack Thermistors

4x 10k NTC Thermistors

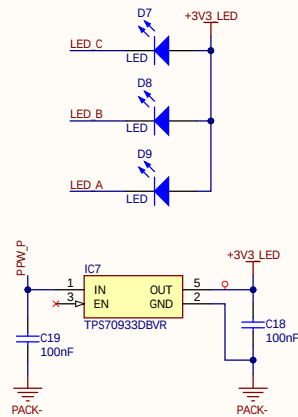

|                                     |                                  |                               |                  |                                                                                       |
